

Accsoon SeeMo Pro

ProdCode: ACSUIT02S

HD monitoring/recording/streaming adapter for iOS devices

[Download Images] (.zip file)

Features

- HD monitoring/recording/streaming adapter for iOS devices
- SDI In & Loop out
- HDMI In
- iPhone & iPad Charging
- H.264 HD Recording & Sharing
- 2 pin DC Power or NP-F Battery

The SeeMo Pro is a monitoring/recording/streaming adapter for iOS devices that can accept HD signals up to 1080p 60fps over either HD SDI or HDMI. With HD SDI input and loop out, the SeeMo Pro SDI is incredibly power-efficient and can flexibly power iPhones and iPads. In combination with the Accsoon SEE app, it transforms iPad or iPhone into a fully featured production monitor with a complete set of professional tools.

Transforms iOS Devices Into Production Monitors

The Accsoon SeeMo Pro SDI is a small box that goes in-between your camera or other SDI/HDMI source and your iOS device via Lightning or USB-C cable.

Professional Monitoring Solution

Superb Image Quality on Latest iPhones and iPads.

Live Streaming Without Limits
