

Blackmagic Design URSA Mini Recorder

ProdCode: BMDCINEURSASHMD

Adds a high capacity SSD recorder to your camera for longer recording times

[\[Download Images\]](#) (.zip file)

Features

- Add a high capacity SSD recorder to your camera for longer shoot times
- You can record to fast 2.5inch SSDs, including U.2 NVMe disks
- Designed specifically for URSA Mini Pro 12K, it attaches between the back of the camera and the battery, and is controlled via the USB-C
- Everything is controlled directly from the camera, so you don't have to operate the recorder separately
- The SSDs can even be mounted on your computer using a Blackmagic MultiDock so you can edit and colour correct right from the cards
