

Cokin P-Series (M) Nuances Extreme Full ND Kit

ProdCode: COKIN11032

Glass ND8 (3 stop), ND64 (6 stop) and ND1024 (10 stop) filters for Cokin M Size (P Series) filter holders

[Download Images] (.zip file)

Features

- 3-Stop Solid Neutral Density Filter (with pouch)
- 6-Stop Solid Neutral Density Filter (with pouch)
- 10-Stop Solid Neutral Density Filter (with pouch)
- Hardened Tempered Schott Glass
- Nano-Metallic Alloy coating for stunning colour neutrality and consistency across the range
- Filter Width: 130mm

The Full ND Kit is an ideal solution to equip yourself with 3 of the most popular Cokin NUANCES Extreme Neutral Density filters: ND8, ND64 and ND1024.

NUANCES Extreme filters are made from highly durable mineral glass and are able to resist accidental falls. They introduce innovative technology: A new coating process ensures uniform density and a nano metallic alloy is applied on both sides of the tempered glass, which results in stunning strength and colour neutrality.

The Nuances Extreme ND8, ND64 and ND1024 filters reduce light transmission by 3, 6 and 10 f-stops respectively, allowing longer shutter speeds and wider apertures to be used.

Rounded corners and 2mm thickness make Nuances Extreme filters easier to insert in extreme conditions. COKIN recommends the use of the EVO filter-Holder to ensure efficient protection against light-leaks.

In the box:

- Nuances Extreme ND8, ND64 and ND1024 Glass Filters
- Filter Pouches
- Cleaning Cloth
