Features

- SDI to HDMI Converter
- Audio De-Bedding Options
- Supports up to 1080p 50/60 signal
- Supports Stereo Audio Output

Convert SDI to HDMI with audio de-bedding options

The DAC-8PA allows you to convert an SDI signal (up to 1080p60) to HDMI. It includes the option to de-bed audio from a stereo RCA connection, or can be used in both HDMI output and analogue audio output.

Support 1080p 50/60 signal

Automatic input signal detection and HDMI support for high colour (Deep Colour).

Support stereo audio output

One SDI loop-through output and one HDMI output.

In the box:

- 1x DAC-8PA product
- 1x AD Switch DC 12V
