Whether you are filming a seminar or conference, conducting a live outside broadcast or shooting inside a production studio, the Datavideo SE-1200MU HD video switcher enables you to switch seamlessly between video sources and blend high-quality digital content on the fly.

SE-1200MU a small, portable computer controlled 1RU rack mountable switcher. It features a 6-Channel HD video input that is incredibly reliable, unlike PC-based systems that are prone to crashing mid production.

SE-1200MU streams out multi-view screen video in real-time to a control PC for monitoring and control remotely. It is designed to be fully controlled from any Windows Laptop / PC and Android tablet / iPad / Mac with the included SE-1200 software control panel.

SE-1200MU includes four SDI and two HDMI inputs with embedded audio and an internal frame synchronizer so you can use sources without gen-lock such as consumer HDMI cameras or even computers for live PowerPoint™ presentations.

Two assignable SDI and two HDMI outputs for connecting an HD recorder, monitor and a streaming encoder, plus two Balanced XLR audio inputs for connecting an external audio mixers. Other features include chromakey, lumakey, DSK, PIP, still stores, audio delay, tally and RJ-45/RS-232 remote control interface.

Users have the option to link a laptop to the switcher unit via USB, for a fast, secure connection. This gives plug and play control over all the functions of the mixer, with no need to configure the computer's IP or network settings.

In the box:

- 1 x SE-1200MU
- 1 x AD Switch DC 12V
- 1 x Utility CD w/ CD Bag
