

## **Datavideo TP-800**

**ProdCode: DATATP800**

Portable Conference Teleprompter

[\[Download Images\]](#) (.zip file)

### **Features**

- Portable Conference Teleprompter
- Clear display
- Built in Teleprompter application
- Easy control and monitoring via Ethernet
- HDMI input and output with hardware mirroring

## **Stand-alone, free adjustment**

TP-800 is both easy to set up and easy to operate. Once set up, the TP-800 can stand completely on its own and can be freely adjusted in height and viewing angle.

## **Allowing performers to focus on their best performance and ensure the event runs smoothly**

TP-800 uses high quality mirror-reflective glass, which looks like an ordinary piece of clear glass from the audience's perspective, but perfectly reflects the prepared script displayed on the LCD screen below the Teleprompter.

## **Clear display for any situation**

With a hood, the strong light effect of the surrounding environment can be avoided, always maintain a clear script display.

## **Easy to carry and durable**

All components housed in a sturdy, portable case that can be set up in just a few minutes. Supports mains or V-Lock battery power.

## **Built in Teleprompter application**

The TP-800 features a bright 15" 4:3 LCD screen with the powerful dvPrompter Plus application built in, there is no need to run software on a laptop.

## **Easy control and monitoring via Ethernet**

Control and monitor the prompter over a local network using any device with a modern web browser, Load, reload and control scripts over a local network.

## **Synchronize multiple units via HDMI or IP**

Connect multiple TP-800s together using the HDMI input and output or use IP synchronisation over Ethernet.

The HDMI input also allows the 15" LCD screen to be used as a HDMI monitor with third party software if required. The HDMI output can also be used to drive external displays.

## Powerful rich text editor

You can remotely change the font size, type, colour and justification on a per script basis and even use multiple different fonts within a single script.

The editor also has support for embedding images and creating playlists from multiple scripts.

## Supports PowerPoint and Keynote slides\*

In addition to text-based scripts you can now import your Powerpoint or Keynote presentation slides via the web interface, slides can be controlled using the hardware [WR-500](#) control or the web based remote control interface. dvPrompter Plus supports seamlessly switching between text-based scripts and slides, you can even add slides and text-based scripts to a playlist.

dvPrompter Plus supports mirroring slides in real time so your content is the right way around even when viewed via the mirror glass.

## Real Time Editing\*

Interrupt live broadcasts with breaking news or urgent updates, simply modify the script via the web interface and watch it update in real time.

## Optional hardware Controllers

The TP-800 can also be controlled using our [WR-500](#) handheld remote, [FS-30](#) Foot Pedal or any generic presentation remote with a USB receiver.
