Tablet PTZ Camera Teleprompter

[\[Download Images\]](#) (.zip file)

Features

- Tablet PTZ Camera Teleprompter
- Designed Specifically for PTZ Cameras
- Innovative Design for Any PTZ Camera
- Universal Mounting
- Flexible Tablet Integration for Various Sizes

Designed Specifically for PTZ Cameras

The TP-950 teleprompter is designed specifically for PTZ cameras and features a tablet holder instead of an integrated LCD screen. This allows users to use tablets up to 15.6 inches, offering more flexibility compared to the TP-900. By mounting the PTZ camera upside down, the TP-950 removes operational limitations, enabling greater movement and versatility in your shots.

Innovative Design for Any PTZ Camera

The TP-950 PTZ Camera Teleprompter offers an innovative and versatile design suitable for any PTZ camera size. Its thoughtful and professional design allows for size adjustment of the teleprompter curtain, ensuring compatibility with all PTZ cameras.

Universal Mounting

The TP-950's adjustable PTZ lift supports all PTZ cameras on the market, ensuring compatibility and flexibility in your setup.

Flexible Tablet Integration for Various Sizes

The TP-950 features an expandable mounting bracket that supports tablets up to 15.6 inches, making it ideal for iPad Pro or larger Android tablets. Unlike the TP-900's built-in 15" monitor, the TP-950's tablet holder offers flexibility and ease of use with a wide range of modern devices.

dvPrompter Plus: Remote Monitoring via WiFi or Ethernet*

Control and monitor the prompter over a local network using any device with a modern web browser.

*Requires in-app purchase

Suitable with Any PTZ Camera Sizes

The thoughtful and professional design allows teleprompter curtain to have the size adjustment. Any PTZ camera size is suitable for TP-950 PTZ Camera Teleprompter.

dvPrompter Plus: Synchronize Multiple Tablets via IP*

Connect multiple teleprompters together using our unique IP synchronisation over Ethernet or WiFi.

*Requires in-app purchase

Powerful Rich Text Editor

Remotely change font size, type, color, and justification on a per-script basis. The editor also supports embedding images and creating playlists from multiple scripts.

Supports PowerPoint and Keynote Slides*

In addition to text-based scripts you can now import your Powerpoint or Keynote presentation slides via the web interface, slides can be controlled using the hardware WR-500 control or the web based remote control interface. dvPrompter Plus supports seamlessly switching between text-based scripts and slides, you can even add slides and text-based scripts to a playlist.

dvPrompter Plus supports mirroring slides in real time so your content is the right way around even when viewed via the mirror glass.

Real Time Editing*

Interrupt live broadcasts with breaking news or urgent updates, simply modify the script via the web interface and watch it update in real time.

dvPrompter Plus: Flexible Control Options

dvPrompter Plus supports direct talent led control via our WR-500 Wired/Bluetooth remote control or remote control via IP using any web browser.

Both options allow you to pause and resume the scroll, increase and decrease speed, increase and decrease font size, jump to specific points within the script (break markers) and switch between scripts in the playlist. Optionally you can connect the Contour Shuttle Xpress to the IP connected computer for even more subtle control.
