ProdCode: DATATTTL100

Through The Lens Kit for TLM-700 Series

[Download Images] (.zip file)

Features

- Through The Lens Kit for TLM-700 Series
- Great for Online Presentations or Webinars
- Look natural on camera, view your presentation while looking directly into the centre of the camera lens
- Web cameras with $\frac{1}{4}$ threads can be mounted directly

The TTL-100 kit turns your Datavideo TLM-700K / TLM-700UHD into a “through the lens” monitor allowing you to see any HDMI source directly in front of the camera lens.

The TTL-100 kit is ideal for maintaining eye contact when video conferencing or allowing the talent to monitor themselves while keeping their eye level centre of the camera lens.

A low-cost accessory kit that turns the TLM-700 series into a “through the lens” monitor

Can be used with web conferencing software such as Zoom for remote interviews, allows you to see your guest while looking directly into the centre of the camera lens.

Great for Online Presentations or Webinars

Look natural on camera, view your presentation while looking directly into the centre of the camera lens.

Best for online presentations or webinars. Allows the talent to see themselves while looking directly into the centre of the camera lens.

Always looking directly into the centre of the camera lens

Can be used with web conferencing software such as Zoom for remote interviews, allows you to see your guest while looking directly into the centre of the camera lens.

Web cameras with ¼ threads can be mounted directly

A wide range of larger cameras can be mounted behind the TTL-100 when used in its freestanding configuration.
