Features

The UReady 4RU Monitor is 19" rack mount ready TFT display with capacitive touch for Broadcast applications.

Used for signal and picture monitoring, or a control system with the help of multi-touch PCT, or a combination of both. Densitron provides a 16.9" with a resolution of 1920 x 624, which allows multiple video picture monitor and audio level displays to be presented side-by-side.

Projected Capacitive Touch functionality allows the device to be interactive with common signal interfaces, such as: Display Port, DVI and VGA for video and USB for touch screen.

- 4RU 19inch rack mount ready TFT display with capacitive touch
- Ideal for signal and picture monitoring, or a control system with the help of multi-touch PCT, or a combination of both
