

Elgato Solid Arm

ProdCode: **ELG10AAG9901**

Auxiliary Holding Arm for the Elgato Multi Mount Rigging System

[\[Download Images\] \(.zip file\)](#)

Features

- Auxiliary Holding Arm for the Elgato Multi Mount Rigging System
- A single steel pole that clamps horizontally onto Master Mount
- Solid Arm provides an auxiliary mounting point for a camera, light or any device with a 1/4-inch thread

MOUNT MORE GEAR

Need a hand or two, even three? Solid Arm provides an auxiliary mounting point for almost any device with a 1/4-inch thread.

EVERYTHING IS CONNECTED

Overhead setups, multiple mounting points, freestanding applications. All Multi Mount components are inter-compatible, so you can customize your configuration on the fly.

In the box:

- 1x Solid Arm (ca. 26 cm / 10.24 in)
- 1x Ball Head with 1/4" screw
