STREAMLINE EVERYTHING

Your setup is your world. From broadcasting and editing to designing, developing, networking — everything — you need one interface to control your myriad apps and tools. You need Stream Deck.

INTUITIVE DESIGN

- Bright LCD keys
  Customize with icons and actions
- Interchangeable faceplate
  Choose your style
- Detachable USB-C
  Use any cable
- Custom stand
  Perfectly angled for desktop use

TAKE CONTROL

15 LCD keys poised to trigger unlimited actions. One-touch tactile operation lets you control apps, launch social posts, adjust audio, mute your mic, turn on lights and so much more, while visual feedback confirms your every command.

INTEGRATE YOUR ECOSYSTEM

Plugins get your apps up and running with Stream Deck in no time. Elgato 4K Capture Utility, Wave Link, Control Center. OBS, Twitch, Twitter, XSplit, YouTube, Spotify. iCue, Philips Hue, LIFX, IFTTT. Zoom, PowerPoint, Keynote, Apple Mail, and loads more. Find them all in the Stream Deck Store, and get new plugins on the regular.

MAKE IT YOURS

Stream Deck features a removable faceplate that you can switch out and modify with ease. Choose from a growing range of epic designs, or slap on some paint and decals to create your own. Change faces whenever the mood strikes, and completely personalize your Stream Deck with custom icons and screensavers.

CHOOSE YOUR STYLE

Stream Deck comes in beautiful black.

You can switch faceplates anytime.

CREATE WITH EASE

Trigger sound effects and audio clips. Launch GIFs and onscreen videos. Activate your lower thirds, intermission screen, and signature outro graphics. Stream Deck integrates your tools and detects your scenes, media, and audio sources, so you can cruise through your workflow and focus on your audience.

THE STREAM DECK STORE

Over one hundred plugins and counting. Beautiful icon packs by graphic design pros like Visuals By Impulse. Video tutorials, articles and interviews that'll make you a Stream Deck ninja. Plus thousands of royalty-free tracks and sound effects that eliminate any risk of DMCA flags and copyright strikes.

HACK YOUR WORKFLOW

Forget keyboard shortcuts. Hotkey Actions let you cram macros into keys for instant identification and deployment without error. Launch apps and websites, open folders and access pre-composed texts. Streamline your film editing, music production or photography workflow. Your options are endless.

Different key profiles/persona slider:

- **Stream naturally**
  Easily control audio, video, chat and more
- **Work smart**
  Instantly access essential apps and websites
- **Teach tactfully**
  Make your Zoom classes extra engaging
- **Edit fast**
  Take your finger skills to the next level
- **Design effortlessly**
  Keep your digital tools close
- **Produce fluidly**
  Turn Stream Deck into your DAW controller

TRIGGER AUTOMATIONS

Sit back, tap a key, and smile as your Ring Light turns on, your intro scene goes live, and your welcome message posts to chat. Smash another key to activate flight mode, launch Spotify, and open your favorite creativity app. With Multi Actions, any number

of actions can be stringed together, assigned to one key, and triggered intermittently or all at once.

CUSTOMIZE YOUR SETUP

Simply drag actions onto keys and add icons. Need more actions? Turn keys into folders to store as many actions as you need. You can also save unique key layouts as profiles for instant access to task-specific actions. Even better, set Stream Deck to switch profiles automatically as you jump between apps.

1. Choose actions and add icons
2. Turn keys into folders
3. Save layouts as profiles
4. Switch profiles automatically
