- **Uncompressed**
Stream with ultra-low latency and rich image detail
- **Set and forget**
Save your settings with built-in Flash Memory
- **Low waste**

Made and packaged using sustainable materials

The world's only 4K60 webcam, Facecam 4K captures video quality you've got to see to believe. Ultrasharp zoomins, smooth 60-FPS motion, DSLR-like color and clarity. Take creative control with powerful settings and effects in Camera Hub app. And for the first time ever, style your shot using 49-mm lens filters.

With an optimized focus area, Facecam 4K ensures you're always perfectly clear at your desk, like magic. It has HDR to overcome highcontrast lighting, plus uncompressed video to preserve every little detail. Once you see all Facecam 4K can do, you'll never look at webcams the same way again.

In the box:

- Facecam 4K
- Monitor mount
- USB-C to USB-C 3.0 cable (detachable, 200 cm | 79 in)
