Streamline your teleprompting with a touch

\*Requires NVIDIA RTX GPU, Apple M1 or better

With a bigger screen and wider compatibility, Promter XL accelerates your content production in virtually any professional studio or camera setup. A bright 15.6-inch display keeps your text readable from across the room, reducing mistakes and reshoots. At your desk, Promter XL doubles as a spare monitor, perfect for video conferencing and multitasking in beautiful Full HD. It sets up quick with a single USB cable, while a reinforced frame supports everything from mirrorless to studio cameras and zoom lenses. Camera Hub brings everything together—manage your scripts, display settings, and even Twitch chat from one easy-to-use app.
