

Hedbox FIREBAG-M

ProdCode: HEDFIREBAGM

Medium Size Li-Ion Battery Safe Bag

[Download Images] (.zip file)

Features

- Medium Size Li-Ion Battery Safe Bag
- Designed for use on HEDBOX batteries: HED-BP57D, HED-BP95D, HED-A60, NINA-M, NINA-L
- **High-Quality Fibre Materials**
The high-quality fiberglass material used in HEDBOX FIREBAG-s provides, high-temperature resistance, fireproof and explosion-proof, safety for storage and transportation of the Li-Ion battery packs
- **VELCRO Security**
A strong closing system made by VELCRO allows fast and safe opening and closing of the FIREBAG-s.
This provides easy usage and operation on a daily base
- **PROTECTIVE Material layers**
The inside material layer is made of Flame-retardant fiberglass, high temperature resistant, fireproof and explosion-proof, significantly improving the safety of the bag during explosion. The outside material layer is made of Flame-retardant fiberglass, with high temperature resistance, providing the safety of the battery during storage

The FIREBAG-M is made of flame-retardant fiberglass material. High temperature resistant, fireproof and explosion-proof, significantly improving the safety of the storage and transportation of the Li-Ion battery pack. Designed for use in safe transport, travel, and storage, it stops and limits any fire caused by accidental battery damage or poor functionality of Li-Ion batteries. It is suitable for Li-Ion battery protection, during D-Tap battery charging. Please note that the FIREBAG-M does not provide complete protection if the Li-Ion battery runs into a thermal runaway.

In the box:

- 1x FIREBAG-M
