

HOYA 62mm HD II UV

ProdCode: HOY0209

UV Filter - Hardened optical glass with 16 layer multicoating, anti-reflection & stain resistance - 62mm

[\[Download Images\]](#) (.zip file)

Features

- 16 layer (both sides) anti-reflection coating with superior water & oil repellent characteristics for easy maintenance
- Chemically and thermally hardened extra-clear optical glass that is 4x stronger compared to normal optical glass to achieve excellent protection abilities
- Low profile frame with front thread to attach lens caps or other filters
- Press mount technology to retain glass tightly inside the frame in case of physical impact
- Made in Japan

The New HOYA HD Mk II series features 16 layers of anti-reflective coatings with HOYA's water repellent and stain resistant coatings making filter maintenance easy. The UV & Protector incorporate chemically hardened optical glass which provides excellent lens protection against accidental damage, and the CIR-PL features High light-transparency UV-absorbing polarisation film for faster shutter speeds.

All filters feature low profile frames to avoid vignetting when used with wide-angle lenses

The UV (UltraViolet) filter absorbs the ultraviolet rays which are invisible to human eyes, but can make areas of outdoor photographs hazy and indistinct. This multi-purpose filter can also serve as a permanent lens protector and while designed specifically for high-resolution digital cameras, the UV filter can also be used on film cameras.
