Features

The KF series was produced by Fujifilm, which is completely waterproof and suitable for a wide range of applications such as watching sports and bird watching.

- Compact, Bak4 Porro Prism type binocular
- Excellent optics for enhanced visibility
The lenses are multi-coated for bright and clear viewing
- Innovative design and tough body
The KF series has a tough design from professional-use models, which are designed to be completely waterproof
- Environmentally friendly "eco - glass"
Environmentally friendly glass without hazardous materials is used for lenses and prisms
- The high refractive index of the Bak4 porro prisms and the multi-coating ensure a clear view
- The long eye relief design and twist-up eyepieces allow for comfortable viewing even with glasses on
- Soft case, strap, eyepiece cap and lens cloth included
- Made in Philippines

In the box:

- Binoculars
- Case
- Strap
- Eyepiece Caps
- Lens Cloth
