ProdCode: KON14A12MBK

Anti-Twist Rod Mount - Raven Black

[\[Download Images\]](#) (.zip file)

Features

- Anti-Twist Rod Mount
- Super lightweight at 7g
- Invisible mount focus rod
- 1/4-20 mount for tight mounting locations
- Single Arri anti-twist pin
- 7g/0.25 oz.
- 17mm W x 15.5mm T x 18.5mm D

Mounting a follow focus can sometimes be a pain. This tiny little mount helps to fix that. It is a 1/4-20 mounting screw with a single Arri-mount anti-rotation pin. This makes mounting to the front of many camera cages super simple. Once mounted, screw on any compatible M12 screw (1.75mm thread pitch) to our 15mm rods.
