Features

- Cage for Nikon Z6 III
- Fastest removable cage on the market with Hatch 2.0 system
- Integrated DJI Ronin-ready Arca plate
- Mounts to the camera eyelets for zero-play mounting
- Photography focused Right Side and Arca Base Core Cage to keep left side cable ports open for tether/monitor/power usage
- Integrated pro features:
 - NATO on Left, Top, and Right Side Plates
 - 60-tooth ARRI-style rosette (M6)
 - Cold shoe with spring-loaded safety stop
 - Bubble level

The KONDOR BLUE Nikon Z6III Cage redefines cage design for hybrid shooters, solving the compromises found in traditional photography-based left-side cages. Many existing designs interfere with cable ports when shooting vertically, limit screen rotation, and create unnecessary obstacles. Hybrid shooters deserve better—so we pushed the boundaries to deliver a truly next-level experience.

Hatch 2.0: Smarter, Stronger, More Intuitive

Our Hatch 2.0 system unlocks new creative possibilities with a reinforced hinge and a captive single-bolt removal for effortless transitions. The cage swings open and slides off the ARCA baseplate, revealing a DJI Ronin-ready Arca plate with an integrated right-side plate featuring a NATO rail and anti-twist mounts. For added stability, the right-side plate secures into the camera's eyelet, ensuring a rock-solid connection. The NATO rail supports our Anti-Twist NATO Clamp, allowing seamless mounting to either the Ronin Arca Plate or Manfrotto 501 Plate for fast and secure vertical shooting.

Unlock the True Cinema Potential of the Nikon Z6III

With the full cage installed, the Nikon Z6III transforms into a true cinema powerhouse. Designed with strategic mounting points for maximum build-out flexibility, this cage enables streamlined setups, including direct mounting of our Pro Battery Plates without the need for 15mm rails. This ultra-compact power solution maintains full usability of the onboard LCD, ensuring no compromises in your workflow.

Built from Production Experience, Designed for Hybrid Creators

The KONDOR BLUE Nikon Z6III Cage is the result of decades of hands-on production experience and real-world hybrid shooting scenarios. Whether you're capturing cinematic video or high-end photography, this cage is built to adapt and elevate your creative process.
