KONDOR BLUE Full Cage with Top Handle for Blackmagic Pocket Cinema Camera 4K & 6K (BMPCC4K) Features Include: Bubble Leveler, Cold Shoe Mounts, NATO Rails and 15mm Rod Holder. Optional Accessories Include: FF Single Rod Adapter, T5 SSD Holder, Arri Rosette Adapters, 15mm Rods, Baseplate, Rosette Arms and hand grips...

The Kondor Blue Full Cage with Top Handle for BMPCC 4K/6K is a four-sided cage featuring an integrated bubble level and built-in shoe mount. The top handle attaches by quick release to a NATO rail that's screwed in on top of the cage.

The top handle provides a second shoe mount, multiple ARRI Accessory Mounts, and a single 15mm rod port for attaching a rod for an EVF, lens motor, or other accessory. Three of the Accessory Mounts come with 3/8"-16 to 1/4"-20 bushings screwed into them so that you can mount 1/4"-20 accessories on top. These bushings are removable. The levers on the top handle are spring-loaded for more efficient use.

The cage provides access to all the ports, slots, and controls of the camera. It offers 1/4"-20 and 3/8"-16 threaded holes all around for attaching accessories as well as mounting onto a tripod. It has several threads on the bottom for extra flexibility in mounting on gimbals and similar camera supports. Your camera is secured to the cage using a supplied 1/4"-20 screw that screws in from the bottom.
