- 5 LED indicators for: Caps Lock, fn Lock, Battery Power, Bluetooth connection and USB connection
- High quality and robustly built for professional use
- Chassis colour: Titanium Gray
- Compatible with Windows 10/11

This Logickeyboard is your number one choice when editing in Blender. The shortcut commands labeled on the keys, and their colour-coded definitions makes you a Master of controlling Blender in no time. The Logickeyboard is ideal for 3D modeling studios, professional graphics environments, and everyone else working diligently with Blender.

## **Why shortcut keyboards?**

Skip the time-consuming menu navigation and eliminate the need for memorizing keyboard commands. A Logickeyboard visualizes all the app shortcuts you need and puts them right at your fingertips. This translates into higher productivity and more time for creativity.

## **Wireless and Wired connectivity**

The Titan keyboard offers dual connectivity, enabling you to effortlessly switch between wireless or wired connection with just a keystroke. It is designed and optimized for use with Windows and can easily be connected to two PC's – one corded and another wirelessly – making it ideal to master two workstations.

## **Backlit and Battery powered**

For the best adaptation to working in low-light environments the keys on Titan are backlit, and the illumination is dimmable in 5 levels. The Titan keyboard uses a long-lasting rechargeable lithium-ion battery for the wireless connectivity with state of the art battery life. If used without the backlight feature the Titan provides energy for months' use before recharge is necessary.

### **In the box:**

- TITAN Backlit and Bluetooth Logickeyboard
- USB-C to USB-C connection cable
- User guide
