Features

With one wire for the USB hub and a separate one for the keyboard, the ASTRA2 series is ideal for editing systems that use USB KVM extenders, and installations that require data security.

- Backlit keys for enhanced contrast and readability
- Dimmable backlight with five selectable levels. 100/80/60/40/20
- Built-in dual USB ports
- Scissor switch keys for lighter, quieter keystrokes
- Innovative design suits any desk or workstation
- Fine craftsmanship using only the best materials
- Colour-coded, labeled shortcut keys with graphical commands
- Compatible with Mac OS 10.6 and later versions

The dedicated LogicKeyboard makes controlling Final Cut Pro X a lot simpler and faster. It is ideal for post-production facilities, professional video editing houses and anyone else who requires all the custom key commands to be readily accessible from a dedicated, clearly labelled, colour-coded keyboard. Using this keyboard is also a great way to learn the Final Cut Pro X key commands. And since the Final Cut Pro X dedicated keyboard also features all the regular letter, number, and symbol labelling that you will find on a conventional keyboard, it can simply be used as a substitute for

it. Easy to set up and use. No software required. Soft touch keystroke - Ideal for all day comfort.
