• Battery capacity: 1500mAh

• Battery life: up to 300 hours (without backlight)

• Battery life: up to 40 hours (with backlight at dimmest level)

• Charging time: 4,5 hours

This Logickeyboard is your number one choice when editing in Final Cut Pro. The shortcut commands labeled on the keys, and their colour-coded definitions makes you a Master of controlling Final Cut Pro in no time. The Logickeyboard is ideal for post-production facilities, professional editing houses, and everyone else working diligently with Final Cut Pro.

## Why shortcut keyboards?

Skip the time-consuming menu navigation and eliminate the need for memorizing keyboard commands. A Logickeyboard visualizes all the app shortcuts you need and puts them right at your fingertips. This translates into higher productivity and more time for creativity.

## **Wireless and Wired connectivity**

The Titan keyboard offers dual connectivity, enabling you to effortlessly switch between wireless or wired connection with just a keystroke. It is designed and optimized for use with Mac OS, but can easily be connected to an iPad or iPhone as well, or to two Macs – one corded and another wirelessly – making it ideal to master two workstations.

## **Backlit and Battery powered**

For the best adaptation to working in low-light environments the keys on Titan are backlit, and the illumination is dimmable in 5 levels. The Titan keyboard uses a long-lasting rechargeable lithium-ion battery for the wireless connectivity with state of the art battery life. If used without the backlight feature the Titan provides energy for months' use before recharge is necessary.

#### In the box:

- TITAN Backlit and Bluetooth Logickeyboard
- USB-C to USB-C connection cable
- User guide
