Save time, educate yourself and boost productivity with the Logickeyboard PRO shortcut keyboard designed specifically for use with AVID Media Composer. This keyboard is your way into a more efficient and productive video editing workflow. A shortcut keyboard with colour-coded split keys, offering video editors time saving functionality by featuring multiple functions on each key – a design that simplifies complex tasks and makes the process more intuitive by visualizing 135 shortcuts.

The keyboard is recommended for usage in post-production facilities, professional video editing companies and by anyone else who requires the custom key commands to be readily accessible on a dedicated, clearly labeled, and colour-coded keyboard. Skip the tedious menu navigation, with colour-coded shortcut keys that offer instant access to functions. This keyboard is also a superb way to learn the Avid Media Composer shortcut key commands. Make every second count in your editing process with the Logickeyboard Astra 2 keyboard, for AVID Media Composer.

The Astra 2 keyboard features backlit keys with five selectable light levels, catering to every lighting scenario. The build-in USB 3.0 hub facilitates easy connection to your devices, while the full-sized F-row and multimedia keys put comprehensive control at your fingertips. While the ASTRA 2 boasts a sleek profile, with scissor-switch keys for a light and excellent responsive feel, it is robustly built for professional use, making it a reliable workhorse for all your editing needs. The keyboard is easily connected with 2 distinctive USB cables for plug-and-play.

To power the keyboard, you need to plug in the grey USB connector. If you need to activate the USB hub, on the back of the keyboard, plug in the black USB connector.

*The actual speed of the USB hub can vary depending on devices connected.
