- 5 LED indicators for: Caps Lock, fn Lock, Battery Power, Bluetooth connection and USB connection
- High quality and robustly built for professional use
- Chassis colour: Titanium Gray
- Compatible with macOS, iPadOS and iOS

This Logickeyboard is your number one choice when editing in DaVinci Resolve. The shortcut commands labelled on the keys, and their colour-coded definitions makes you a Master of controlling DaVinci Resolve in no time. The Logickeyboard is ideal for post-production facilities, professional editing houses, and everyone else working diligently with DaVinci Resolve.

## **Why shortcut keyboards?**

Skip the time-consuming menu navigation and eliminate the need for memorizing keyboard commands. A Logickeyboard visualizes all the app shortcuts you need and puts them right at your fingertips. This translates into higher productivity and more time for creativity.

## **Wireless and Wired connectivity**

The Titan keyboard offers dual connectivity, enabling you to effortlessly switch between wireless or wired connection with just a keystroke. It is designed and optimized for use with Mac OS, but can easily be connected to an iPad or iPhone as well, or to two Macs – one corded and another wirelessly – making it ideal to master two workstations.

## **Backlit and Battery powered**

For the best adaptation to working in low-light environments the keys on Titan are backlit, and the illumination is dimmable in 5 levels. The Titan keyboard uses a long-lasting rechargeable lithium-ion battery for the wireless connectivity with state of the art battery life. If used without the backlight feature the Titan provides energy for months' use before recharge is necessary.

### **In the box:**

- TITAN Backlit and Bluetooth Logickeyboard
- USB-C to USB-C connection cable
- User guide
