

Lumens VC-A71SN

ProdCode: LUMVCA71SNW

4K NDI® PTZ Camera with NDI HX3 and 12G-SDI - White

[\[Download Images\]](#) (.zip file)

Features

- 4K NDI® PTZ Camera with NDI HX3 and 12G-SDI
- 2160p 60, 30x optical zoom, 1/1.8" Sensor
- 12G-SDI, HDMI, Ethernet, USB3.0 output
- Support NDI HX3 / NDI HX2 / RTSP / RTMP / RTMPS / MPEG- TS / SRT
- Support FreeD protocol for live VR/AR production
- Support BT.2020 colour space

NDI HX3 Technology

VC-A71SN supports the latest version of the NDI protocol, NDI HX3. It delivers very high-quality video with ultra-low latency and connects directly to NDI networks.

12G-SDI

Lumens VC-A71SN is equipped with an 12G-SDI video output. This port delivers UltraHD at up-to 60 frames a second, meaning it can capture fast motion and deliver smooth video output.

BT.2020/Rec.709

Lumens VC-A71SN supports the BT.2020 colour gamut for wide and precise colour reproduction. With BT.2020, VC-A71SN will be easy to match other cameras and deliver video output optimized for new generation UltraHD monitors.

Live VR/AR Video Production

VC-A71SN supports the FreeD protocol.

This enables users to work with Virtual Reality and Augmented Reality sets without the need for additional sensors.

Smooth PTZ Movement

With high-precision motor control and Lumens' innovative mechanical transmission mechanism, VC-A71SN achieves smooth, high-speed movement without any judder. The speed of movement is fully customizable.
