- 1080p 60 fps
- Superb value for money
- 12x zoom / 72.5° horizontal field of view
- Simultaneous HDMI, USB and IP streaming output
- Outstanding colour reproduction

Studio Quality

Equipped with a professional 1/2.8 inch image sensor, the VC-R31 provides great output in all lighting conditions. The sharp lens, intelligent white balance, and auto-exposure mode combine to deliver clear pictures. The camera handles skin tones, high contrast, low and mixed lighting conditions extremely well.

Ideal for Video Conferencing

Covering a wide 72.5° horizontal frame of view and with plug and play USB, the camera is a great option for video conferencing. The versatile zoom lens can capture everyone in a medium-sized conference room. VC-R31 connects to the host computer via USB running popular video conferencing applications such as Teams, WebEx, Skype, and Zoom.

Smooth Motion PTZ

The 12x optical zoom offers fantastic flexibility making the camera suitable for positioning anywhere from the back of an auditorium to an interactive training room. Whenever the operator needs a panning movement across a stage, a close-up focus on the presenter, or a wide-angle shot, it maintains a steady image while the camera moves. Lumens' autofocus system enables the VC-R31 to deliver sharp pictures even while the camera is in motion or when the zoom angle changes.

Live Streaming and Virtual

Video output is via USB 3.0 , HDMI and Ethernet simultaneously, giving users great workflow options.The camera can be controlled and monitored locally or remotely over an IP network. It's suitable for hosting a live and virtual conference at the same time, tackling the issue of space and engaging with audiences both local and remote. Compliant with most video production, video conference, and streaming applications, including Zoom, Skype, WebEx, Teams, Google Meet, Wowza, YouTube, OBS, and Wirecast.
