[\[Download Images\] \(.zip file\)](#)

Features

- Ideal neck strap for mirrorless cameras and other small SLR cameras
- Fully adjustable from 106 to 132cm (42" to 52")
- Neoprene pad with non-slip surface
- Easy to attach - 3/8" Mini QD connectors with 1.5mm cord loops
- 3/4" Quick Release System at main strap for added versatility
- Recommended carrying load up to 1.1kg

The Mirrorless Strap from OP/TECH USA is designed to accommodate cameras that are larger than a point-and-shoot, but smaller than a full-size SLR. It features a soft and comfortable neoprene pad, backed with a non-slip surface. It attaches to a camera with two strong Mini QD Loop connectors and is fully adjustable to fit photographers of all sizes and shapes. The Mirrorless Strap is also compatible with many other System Connectors so it can be used with other cameras or binoculars. Discover a new level of comfort today!
