Taking Bridge Cameras to Another Level

Capture moments near and far. The 20-1200mm zoom lens and 4K Video/Photo recording capability will make sure you catch those fleeting photo opportunities in active outdoor situations.

*35mm camera equivalent: 20-1200mm

Foresight In Full Details

The 20mm wide angle lens allows you to shoot breathtaking landscapes in wide panoramic pictures. For more details you can use the powerful 60x zoom to capture moments you don't even see.

*35mm camera equivalent: 20-1200mm

2,360k-dot, Large OLED LVF

The LUMIX FZ82D perfectly fits in your hand with a secure and ergonomic grip. Thanks to a 2,360K-dot OLED Live View Finder of approx.0.74x (35mm camera equivalent), you always have a clear view of your environment even in bright sunlight. A bridge camera for everyone that is perfect to take on your adventures.

Relive Your Adventures

Relive your favourite unmissable moments by recording your biggest adventures and most important steps in life with the LUMIX FZ82. The 4K video mode is up to 4x resolution of Full HD. Amazing quality for your fast paced action and exciting scenes.

Shoot Now, Focus Later

Taking photos without worrying about focusing. Based on the newest 4K technology, the Post Focus feature gives you the power to touch the area you'd like to be in focus, even after the shot has been taken. With the Focus Stacking feature, you can easily select several focus points in the same image to give you more creative freedom. A feature which saves you time to focus on the more important things in life!

No More Blur at 60x Zoom

The POWER O.I.S. (Optical Image Stabilizer) effectively suppresses hand-shake vibration at the tele-end, and realizes handheld 1200mm (35mm camera equivalent) super telephoto shooting. The Active Mode is equipped with LUMIX FZ82D that

encourages active video recording at wide angle such as shooting while walking without causing deterioration of image quality.

1cm Macro Shooting

Stunning macro photos can be shot with minimum focusing distance of 1cm. You can enjoy shooting close-up shots with the LUMIX FZ82D to express spectacular details of food, flowers, insects and so on.

Intuitive Touch Control with 1,840k-dot Monitor

The 3.0-inch rear monitor with a high resolution of approximately 1,840k-dot features higher visibility even for sunny outdoor shooting. And, touch control immediately lets you to set focus to the subject by just touching it on the screen and you can even release the shutter.

Zoom Compose Assist

The Zoom Compose Assist function lets you quickly zoom out with a single press of a button when you've lost your subject while telephoto shooting. This allows you to instantly reconfirm your composition.

USB Type-C® Battery Charging

The camera's battery can be recharged via USB Type-C® according to your convenience.
