OneMo Lite is designed for photographers who want to venture into different places. Clamshell opening allows easy access while interior modular storage makes everything neatly organized; Split compartment for gimbal stabilizer and more; Side quick access makes camera-grabbing easy; Widened shoulder strap and airy back panel ensure all-time comfort; With anti-theft YKK zipper pull and a hidden pocket for AirTag; PU coating is splash-proof and wear-resistant; Quick-grab handles for versatile carrying.

Wide Rear Opening

With its classic clamshell opening, the OneMo Lite provides the portability benefits of a backpack and packing convenience of a suitcase.

A Powerful Organizational Beast

The interior modular storage system keeps everything neatly organized. Several partitions can be flexibly adjusted to safely store your daily and travel essentials in the right place.

- Split compartment for gimbal stabilizer and other gear. (Some gimbal stabilizers need to be disassembled for better storage.)
- Classic battery storage + power indicator system.
- Zipped pocket for bits and pieces.
- Left side pocket to store tripods.
- Mesh pocket for batteries.
- Multiple attachment points and 2 accessory straps for external gear attachment.

Side Quick Access To Capture Wonderful Moments

Quickly grab gear via the side-access pocket so you'll never miss a shot.

Targeted Support For Comfort On the Move

Scientific design meets ergonomic functionality in the OneMo Lite's back panel system, and the result is total comfort throughout your journey.

- Mesh holes
- Widened shoulder strap
- Air pocket and pressure-relieving foam

Feel the Security All the Way

- Anti-theft YKK zipper
- Hidden pocket for AirTag

Build-to-last Splash-proof Material

OneMo Lite uses a PU coating, which is splash-proof and wear-resistant, making it a bag designed to last and withstand heavy rigs.

Versatile Enough to be Used Everywhere

Multiple Handles For Convenient Carrying

Top, side and middle handles make it easy to carry in any situation, or simply pass it through your luggage handles.

A Hands-free Experience

Through scientific interior space planing, this bag can store as much gear as you need for a convenient hands-free experience.
