- DIY partitions safely store the whole set of Ronin 4D and some accessories
- Comfortable carrying experience
- Side and Top Heat Outlets
- Dimensions: 520 x 320 x 215mm
- Weight: 2.38kg

Ronin 4D backpack inherits the classic look and functions of the OneMo series. It is a mobile-ready platform and a smart storage solution, satisfying both working and storing needs. A built-in Beetle Camera Clip ensures the main body of Ronin 4D is steadily fixed throughout the journey. With DIY partitions, the whole set of Ronin 4D gear is protected and safely stored, as well as multiple batteries and 2-3 lenses. The front pocket stores small accessories like hard drives, memory cards and data cables. Configured with an adjustable camera strap and quick connectors, you can use a gimbal camera in front of your body easily and flexibly. The backpack also comes with a wide waist strap to help distribute pressure for extended periods of time.

Integrated Platform For Cinematography

The Ideal Partner For Ronin 4D

Based on the practical needs of cinematographers, the Ronin 4D backpack allows you to perform your best and provide an ideal solution for your workflow.

Integrated Creation Platform

- **Your Mobile Workstation**

- The main body of Ronin 4D can be fixed to the back panel through a Beetle camera clip.
- Cable passes between zippers to connect with the gimbal and camera.

- **Adjustable Camera Strap**

The gimbal and camera can be used flexibly and easily in front of your body.

- **Side+Top Heat Outlets Ensure 4-season Application**

With the help of the Velcro on the front flap, it is perfect for year-round use.

One-stop Storing Solution

Quickly transit from working condition to storing condition.

- **Wide Rearing Opening and DIY Partitions**

Stores Ronin 4D, several batteries and 2-3 lenses.

- **Front Pocket Stores Accessories**

Hard drive, memory card, data cable, etc.

- **Shoulder Strap Stores Smartphone**

Access your smartphone quickly and easily.

Optimal Load Transfer During Movements

The backpack inherits the advanced carrying system of OneMo2, which features a highly engineered back panel and multiple straps for even weight distribution.

- Wide padded waist strap contours to your torso.

Freedom to Work In Demanding Locations

- Black colour and splash-proof PU coating make it the perfect backpack for a day outdoors.
- Special wear-resistant material at the bottom can withstand heavy use.
- Splash-proof YKK zipper brings added peace of mind.
