

PGYTECH OnePro ST Backpack

ProdCode: PGYPCB258

BackPack for Pro Super Telephoto - Night Camo

[\[Download Images\]](#) (.zip file)

Features

- BackPack for Pro Super Telephoto
- AerisFrame Suspension Carry System for mountaineering-grade support and pressure relief
- The thick, high-expansion DIY dividers provide all-round protection for equipment. Inner Velcro allows flexible repositioning to meet the storage requirements of lenses with different focal lengths. (Can accommodate one camera with a 600-1200mm super telephoto prime lens)
- Made with lightweight materials, the backpack weighs only 2.2kg (4.85lb)
- Supports multiple carrying methods such as shoulder carry, hand carry, and mounting on a small trolley (Note: Small trolley not included)
- The rain cover is in leaf camouflage. When unfolded, the rain cover can be used as a moisture-proof ground mat for convenient equipment handling outdoors

7-Series Aerospace Aluminium Frame

Ergonomically designed to conform to the curve of the back, supporting every adventure.

Eagle Wing Suspension Back Panel

The high-density ridged foam padding offers flexible cushioning with optimal support, while the Y-Vent airflow channels ensure efficient cooling and long-lasting comfort.

Waist Strap for Extra Support

Soft yet supportive, this ergonomic waist strap wraps comfortably around your body and can be removed when not needed.

Ergonomic, Durable Shoulder Straps

Designed to fit your body, with an adjustable sternum strap to help distribute weight and breathable mesh to keep you cool and comfortable.

Adjustable Back Length for a Custom Fit

Simple hook-and-loop adjustments ensure a perfect fit for different body types. (Adaptable back length: 38cm-48cm).

Instant, Effortless Access

The 180° zippered opening makes grabbing your gear fast and easy-never miss an unexpected moment again!

Flexible Dividers for A Perfect Fit

The foam-thickened, flexible dividers with hook-and-loop fasteners, easily adjust to fit lenses of different sizes and focal lengths.

Supports a fixed focal length lens up to 1200mm plus camera body.

Accommodates

600mm

- Sony 600
- Canon 600
- Nikon 600

800mm

- Canon 800
- Nikon 800

1200mm

- Canon 1200

Maximum Dimensions Lens Diameter (with Lens Hood): <17.5cm/6.8in

Maximum Length (Camera+Lens): <56cm/22in

Effortless Carry, Unlimited Creativity

Weighing just 2.2kg(4.85 lb), this backpack's featherlight design reduces your load, making travel effortless. Choose Your Preferred Carry Style to Match Your Journey.

- Trolley Mode (trolley not included)
- Hand Carry Mode

Dual Camo, Two-in-One Versatility

Distinct from the pack's Dark Night camo, the rain cover features an Autumn Leaf camo, allowing users to adapt to different outdoor environments. SONY The rain cover can be unfolded into a moisture resistant mat, providing a clean surface for gear access in the wild.

Effortlessly Conquer the Outdoors

Crafted with splash-resistant Dark Night camo fabric, it is built to thrive in the unpredictable outdoors.

The tough, thickened, moisture-resistant bottom keeps your backpack standing tall, no matter the rough terrain. And clean-up? It's a breeze!

Expandable Carry, Mission-Ready

Accessory Straps - Secure tripods, trekking poles, and more.

Shoulder Strap Loops - Easily attach your camera or binoculars for quick access.

Front Stretch Mesh - Perfect for storing light items such as hats or jackets.

MOLLE Attachment System-Securely add accessory cases.

Thoughtful Details for Every Need

Side pockets for holding water bottles, tripods, or folding stools.

Large zippered pockets on both sides provide ample storage space for cables, a tablet, and more.

Shoulder straps include a water bottle pocket for easy access.

The battery pocket features a marker to indicate if a battery is full or used.

Includes a hidden AirTag pocket for added security and anti-theft protection.

Equipped with YKK splash-resistant zippers for enhanced durability.

The front pocket stores power banks and other frequently-used items.
