 - Mobile Phones

Record Your Journey

The action camera adhesive mount is the perfect travel companion for those who want to travel light but record their travels. It can be adhered securely to different positions on vehicles.

A Durable And Sturdy Solution

The base uses 3M VHB tape, which features strong adhesiveness and a great ability to withstand the rigorous outdoor environment. Combined with an aluminium alloy magic arm, this gear can hold a load of 1.0 kg.

Capture Creativity From Every Angle

The magic arm has dual ball heads that support rotation to any angle. The arm can be locked with a wingnut, ensuring easy set-up and operation.

Switch Between Different Devices Freely

The magnetic mount is configured with an action camera mount adapter as well as a 1/4" mount adapter to accommodate a wide range of devices.

PGYTECH Quick Release Pin

The patented PGYTECH quick-release pin allows users to mount or detach an action camera efficiently and effortlessly.
