- High-strength adhesion, safe and stable
- Dual ball heads ensure total flexibility and easy lock
- The cradle shape wraps four corners of your mobile phone tightly
- Compatible smartphone size: 130~175mm long, 64~92mm wide, 0~15mm thick. (Compatible with most smartphones)

Strong Adhesion and Flawless Stabilization

Using ultra-strong, ultra-durable, weatherproof 3M VHB tape, this adhesive mount could hold your phone firmly even on a bumpy road or sharp turn.

Total Flexibility

Dual ball heads together with a magic arm ensure total pan-and-tilt flexibility. For road navigation, voice calls or listening to music, this mount brings you a refreshing riding experience.

Four-side Wrapping Design Enhances Stability

The cradle-shaped design wraps four corners of your mobile phone tightly and the built-in rubber protects your phone from scratches and vibration.
