Plustek SmartOffice PS3180U

ProdCode: PLUS6524

Duplex colour document scanner

[Download Images] (.zip file)

Features

- Duplex colour document scanner
- Supported by thousands of document management, content management and Electronic Health Records applications
- Compatible with your Electronic Health Records System
- Multi-feed Detection - to determine the thickness of scanned pages
- Automatic image refinement
- Supports PC and Mac

The Plustek SmartOffice PS3180U is an 80-page per minute, duplex colour document scanner that is not only fast, but also reliable and cost effective. The automatic refinement of images and ultrasonic mis-feed detection ensures all of your important documents are accurately scanned.
The PS3180U has one of the lowest Total Cost of Ownerships (TCO) of any high-speed document scanner. TCO is 40% less than other scanners in the 60-80 ppm segment.

Increase your productivity

- Ultrasonic multi feed detection
- High Speed - Scan 80 pages or 160 images per minute
- Single Touch Scanning

Scan mixed batches

Automatic image refinement lets you scan different sizes of documents all in the same batch.

Compatible with Citrix technology, valued for product integration, development and deliver solution in Citrix environment.

SmartOffice PS3180U Application Example: Healthcare

- **Medical Records**
  The PS3180U’s high speed and large 100 sheet feeder makes this scanner ideal for digitizing patient records in the back office or reception desk.
- **Patient Registration**
  The PS3180 is also ideal for patient registration. It scans ID cards and insurance cards in addition to registration documents. It scans an 8x11” document in less than a second so your office staff will spend less time scanning and more time with your patients.

Multi-feed Detection

The PS3180U scanner uses ultrasonic sensors to determine the thickness of scanned pages. If the scanner determines that more than one page is feeding, the scanner stops and the user is alerted.

Automatic image refinement

Automatic page size detection, black border removal, rotation and straightening ensure high quality images and the ability to scan mixed batches of documents.

Single Touch Scanning

Set 9 different scanning jobs and send to printer, Email, Local Folder, Network Folder or FTP and save in standard imaging formats, including JPEG, TIFF, and searchable PDF.

Automate Your Scanning Workflow – One Button Is All It Takes

With Plustek's in-house button management software, you can scan, process, and save in one click—no need to switch between different programs.

- **Advanced Image Enhancement**
  Auto deskew, crop, and blank page removal for clean, ready-to-use files.
- **Includes Smart Text Recognition**
  Comes with OCR capability to convert scans into searchable PDFs or editable Word and Excel documents.
  (PlustekOCR for Windows, Plustek DocOCR for Mac)
- **Flexible Save Options**
  Save your scanned documents to local folders, network drives, FTP servers, or send them directly via email as attachments. You can also save to folders that sync with cloud services, helping you keep files organized and accessible — all without extra steps.
- **Fully Customizable Buttons**
  Configure each scan button to match your daily routine and workflow needs.
