The Plustek SmartOffice PN30U scanner is an easy to use network based office solution for sharing documents in today's multi-location and global environment.

Scan to any PC on your network

The SmartOffice PN30U is perfect for small and medium sized offices that have the need to scan documents, but do not have the daily scan volume to justify a dedicated scanner for each employee. All PC users in the office are be able to digitize document with the same network.

One Touch Scanning

- **Application**
  Send your scanned documents to the application
- **Save**
  Save directly to a shared folder or local folder, archive your documents more easily
- **Mail**
  Attach your documents and directly send via your default MAPI-based email program
- **Copy**
  Scan images straight to your printer without requiring saving to the device
- **FTP**
  Upload the documents directly to FTP

Easy Access to Software

Compatible with most software applications with the compatibility to scan and integrate to existing platform via industry standard TWAIN & WIA.

Compatible & Comprehensive

Compatible with Windows and Mac support you can feel free to use in both operating systems. With the SDK kits you can easily develop the customize application for industry use. Option: the user interface of Android system for developers to further use.

Multi-feeding Detection

The PN30U prevents multi-feeds by checking the thickness of documents and

detecting overlapping pages with the built-in ultrasonic multi-feeds detection capability. Users will be warned when a multi-feed is detected.
