

## **Roland HT-RX01**

ProdCode: ROLHTRX01

**HDBaseT Receiver** 

[Download Images] (.zip file)

## **Features**

- HDBaseT Receiver
- Converts HDBaseT signals to HDMI output
- Maximum 1080/60p and WUXGA support for HDMI
- HDCP compliant
- Capable of RS-232C transmission

HDBaseT-compatible transmitter capable of transmitting HDMI signals up to 100 meters over an Ethernet cable.

Roland HD BaseT solutions empower the sharing of ideas in huddle & meeting rooms and supports AV installations with simplified distribution of the presenter's computer to a video switcher or a digital projector hundreds of feet away.

## **Long-distance HDMI distribution**

Pair the HT-RX01 with the Roland XS Series Multi-format matrix switcher outputs, or the HT-TX01 for a powerful yet simple solution to the most complex problem; transmitting uncompressed High Definition HDMI video, audio and RS-232 control up to 100 meters using industry standard Cat5e cable.
