Features

Ultra-compact and filled with innovative Roland AV technologies, the VR-6HD is the ultimate all-in-one solution for everyday business livestreaming events.

Offering advanced features and versatile connectivity in a portable, go-everywhere format, the VR-6HD is ideal for corporate meetings, online sales presentations, worship services, and other professional streaming and video capture applications.

Video switching, audio mixing, and LAN/USB streaming encoders are integrated into a single streamlined unit, eliminating the hassle and frustration that comes with connecting multiple devices. And one operator can easily handle all production tasks with minimal study, thanks to the smart interface, deep automation tools, one-touch macro sequencing, PTZ camera control, and more.

- Ultra-compact audio/video mixer with direct streaming encoders
- Powerful live production automation with sequencing, macros, and scene memories
- Built-in streaming encoders for transmitting two livestreams at rates up to 1080p/60 FPS
- Record streams directly to an SDXC card for archiving, editing, and distribution

- Six 1080p HDMI inputs with frame rate converters and scalers
- Support for cinema and broadcast frame rates
- Five-layer video effects engine
- Five total outputs: three HDMI, USB-C streaming, and a dedicated direct streaming output
- Six selectable output modes: Program, Sub-Program, Aux, Preview, Multi-View, and Still-View
- 28-channel digital audio mixer with advanced effects and processing
- 16-slot still store function supports screen capture or uploaded BMP, JPEG, and PNG images with alpha channel in the internal non-volatile memory
- Enhance your livestreams with sound effects, still images, and video sources stored on an SDXC card
- Audio Player function with six trigger pads and onboard storage for 12 audio files
- Control six PTZ cameras with support for multiple brands and mixed protocols
- 4.3-inch touch screen with graphical menu
- Extensive device control with Bluetooth®, USB, RS-232, and LAN
- Remote control software available for iPad, macOS, and Windows*
- Wireless and wired camera tally support

* Remote PC and iOS app available in Q4 2023
