Two-Channel Wireless Lavalier Microphone System With Receiver

[Download Images] (.zip file)

Features

- Two-Channel Wireless Lavalier Microphone System With Receiver
- Two-channel wireless microphone system with Receiver for use with cameras, computers and direct-to-phone connectivity. Pair both microphones directly to your iOS or Android device using the Shure MOTIV Video or Audio apps or to the MoveMic Receiver for use with cameras and third party mobile apps
- Connect your MoveMic Receiver to your mobile phone for additional compatibility with third-party and native apps on your mobile phone. Direct-to-phone connectivity is only recommended for use with Shure MOTIV apps
- Carefully designed microphone form factor to be as small and discreet as possible
- Created by same Shure team behind the professional wireless microphone systems used by the world's leading artists, venues and festivals.
- 24 hours of recording on the go: MoveMic lavaliers provide eight hours of battery life within the microphone, with an additional two full charges ready in the convenient charging case. The MoveMic Receiver needs to be charged separately
- The MoveMic Two Receiver Kit offers instant setup and connectivity, enabling you to record in seconds without missing a beat
- Choose between direct-to-phone wireless, or use the MoveMic Receiver with your camera, for up to two channels of high-quality audio with any device

- Utilizing custom acoustic design and proprietary wireless software, MoveMic delivers professional audio quality beyond traditional mobile devices
- The free ShurePlus MOTIV apps allow you to customize your audio and video settings for optimal recording. Configure gain, limiter, EQ, compression and noise reduction within the apps
- Rated IPX4, MoveMic Two is designed to withstand rain, spills and splashes, ensuring your content is not limited by environmental conditions

Elevate your content with the Shure MoveMic Two Receiver Kit, the ultimate solution for capturing professional audio on mobile phones, cameras or computers. This wireless clip-on microphone system comes with the MoveMic Receiver, expanding compatibility to mirrorless and DSLR cameras, computers, and third-party apps on your mobile phone. With up to 24 hours of recording, quick setup and two channels of high-fidelity audio, this wireless microphone for cameras lets you capture every moment.

BUILT FOR BROADCAST QUALITY

Shure engineers tapped decades of wireless knowhow to build the best audio experience possible. Using a custom acoustic design and proprietary wireless software, MoveMic takes cable-free recording to new levels of broadcast quality.

The MoveMic Two Receiver Kit comes fully equipped with two MoveMic wireless lavalier microphones and the MoveMic Receiver to offer unparalleled functionality and compatibility for the modern creator. After quickly setting up the Shure MOTIV apps, you can record high-quality audio directly to your mobile device or use the included MoveMic Receiver with cameras and third-party apps.
