

Shure MVX2U

ProdCode: SHUMVX2U

Digital Audio Interface - XLR to USB adapter

[\[Download Images\]](#) (.zip file)

Features

- Digital Audio Interface - XLR to USB adapter
- XLR to USB adapter for recording and streaming directly to a computer with an XLR microphone
- Intelligent DSP with Auto Level mode that automatically adjusts mic gain for consistent audio output
- Access the full features of ShurePlus MOTIV Desktop App, including a customisable sound signature with both Auto Level Mode or Manual Mode, as well as updatable firmware
- Configurable DSP features via Manual Mode: Adjust Gain, Limiter, Compressor, EQ, or use your saved presets
- Supplies phantom power up to 48v for condenser mics
- Up to +60dB gain to amplify signals for microphones such as the SM7B
- Built-in 3.5mm headphone jack for zero-latency monitoring and playback
- Sleek and portable rugged build for plugging into an XLR microphone, or use in-line with XLR cables
- Compatible with both Mac and Windows, with a USB-C to USB-C cable included in the box

In the box:

- 1x MVX2U Digital Audio Interface
- 1x 1m USB-C to USB-C Cable
