

SLIK SH-707SP

ProdCode: SLI3389

Multi action tripod head with single handle for pan and tilt, and quick release plate with video pin

[\[Download Images\]](#) (.zip file)

Features

The SLIK SH-707SP is a sturdy, all-metal, 'Multi-action' panhead with pan-handle, ideal for videography and birdwatching.

The simple one-handle lock-release system controls both pan and tilt movements. This style of head is perfect for tracking moving subjects with a spotting scope, video camera or binoculars.

It features a fast and easy to use quick-release plate with retractable video pin to securely mount a camera or spotting scope on the tripod. The mount for the quick-release rotates 360 degrees and can be locked down, facing in any direction.

- Multi-action tripod head with single handle for pan and tilt
- The handle allows for more precise control of the head's movements
- Perfect for tracking moving subjects with a spotting scope or binoculars
- Quick release plate with retractable pin for use with video cameras
- Equipped with a dual-axis bubble level on the camera platform, easy camera horizontal adjustment
