- Field of View at 1000m: 108m, Eye-Relief: 16.0mm
- Width x Height x Depth: 120 x 175 x 65 mm

“Fast, Close, Sharp” - The outdoor world provides us with many experiences and this is exactly why Steiner has developed the new SkyHawk 4.0 range of binoculars; to observe nature in clear, sharp and close focus at all times.

The outstanding High-Contrast-Optics deliver razor-sharp images and depict every detail of nature in full. Thanks to the Distance-Control-System, minimal focusing movement is all that's required to adjust from watching a bird in flight to a sharp close-up view of a beetle in the grass.

Steiner is setting new standards with their unique and stylish design; no other binocular can compare in terms of looks, ergonomics and handling, which ensures that when used for longer periods, you will have a more comfortable experience.

The SkyHawk 4.0 strap attachment offers a universal mounting option. All SkyHawk 4.0 models include a range of accessories as follows: a high-quality case, rain cover, lens caps and a soft padded neoprene carrying strap that provides comfort, even during long hikes. The new SkyHawk 4.0 series offers a unique optical experience along with its legendary STEINER ruggedness.

This 10x42 mid-size model delivers bright, crisp images with 10x magnification and a large 42mm lens objective. The power and brightness provide great long-range detail, making it perfect for the great outdoors.

In the box:
