## **Features**

- SDXC UHS-II Memory Card
- Designed By Professionals, For Professionals

  An uncompromising professional videographer demands reliable and durable media they can trust. They choose wisely.
- Speed Of Up To 290 Mb/s Read And 260 Mb/s Write
  For busy filmmakers, efficiency means everything. Wise SDXC™ UHS-II / I
  cards withstand the toughest requirements for photo and video by its lightning
  fast read and write speed. Read speeds of up to 290 GB/s optimize your postproduction workflow, and write speeds of up to 260 GB/s allow you to handle
  burst shooting mode and professional video recording.
- Ultimate Durability

Wise Advanced SDXC<sup>™</sup> UHS-II / I cards are water-proof, dust-proof, shock-proof, X-ray proof, and can be operated in temperatures ranging from -13°F to 185°F (-25°C to 85°C).
