DSLR-like Detail and Clarity

That outclasses all other 4K webcams.

Larger Sensor Superior Image Quality

- **Ultra-Large 1/1.3" CMOS**

Featuring possibly the largest sensor ever in a webcam.

- **f/1.85 Tailor-made Aperture**

With a focal length of 24 mm* and an f/1.85 aperture, tailor-made for desk setups.

PDAF Lightning AutoFocus

Zero Lag, No Blur, Never Miss a Close-Up Moment

Software for DSLR-Like Settings & Control

Excellent straight out of camera, yet fully customizable.

Pro Colour Grading Made Easy

* Currently only available in Windows. Coming soon on Mac.

- **Patented Technology**

Enjoy a user-friendly experience similar to DaVinci Resolve, but streamlined for quick and easy use.

- **Simpler & Easier**

Perform real-time live colour grading on camera feeds during streams, going beyond traditional post-production tools.

- **Live Colour Grade**

Achieve professional colour grading effortlessly with YoloLiv's own Picasso Resolve engine, designed for simplicity and outstanding results.

Excellent Low-Light Performance

Look clear in the harshest conditions

Not Your Average 4K

Larger Sensor, Precision Optics & AI-Powered Detail.

High Dynamic Range (HDR) Technology

Get richer detail and colors with YoloCam S3. It automatically refines lighting and corrects exposure.

True Bokeh Effect

YoloCam S3's lens, larger sensor, AI algorithm does the work together to get natural background blur and perfect focus.

Zoom Without the Blur

4X Digital Zoom with Zero Loss: Get a Perfect 1080p Output

No Overheating Guaranteed

- All-Aluminium Body
- Expansive Heat-Dissipating Structure
- Perfect for Non-Stop 24/7 Streaming
- Rock solid video with confidence

Easy Mounting

Easily attach to laptops or monitors with the included Magnetic Mount.
The 1/4-inch mounting thread also let you connect a tripod for added versatility.
